

SYNTHETIC SURFACE BOX TYPE 4055

80/30-101

For underground air valves, H-4055V MD-GG, Classic

Water Supply

Wastewater Treatment

AVK offers a wide range of fixed and height adjustable surface boxes in various dimensions, which can be used in many fields of application. Apart from economic benefits, AVK synthetic surface boxes are lightweight, user-friendly, easy to open, noiseless and maintenance free. Most of AVK surface boxes are designed and approved according to DIN/EN standards, but can also be designed according to local standards or customer specifications. The carbon footprint (CO₂ emission) of synthetic surface boxes, measured from resource to end of life, is significantly lower compared to surface boxes made of traditional materials, making AVK surface boxes ecologically sound.

Use:

Height adjustable surface box with cast iron lid, for underground air valves, design derived from DIN 4055, standard lid inscription: AVK AIR VALVE

Features:

- Lightweight, user-friendly, silent and maintenance free
- 100% recyclable and significantly less use of resources compared to traditional materials
- Manufactured out of high grade recycled materials
- Ribs in housing ensure optimal fixation in road foundation
- Selected materials for housing and lid ensure easy opening at all times
- Heat resistant to max. 250 °C
- Suitable for low-temperature applications
- Large height range and flexible positioning of top part
- No height adjustment needed after installation, saving time and costs
- Floating top part following road settlement ensuring perfect alignment at all times
- O-ring only to be used for determining final position of top part
- Locking clip around the bolt ensuring lid will stay in its place
- Large clear opening to grant access to air valve below
- Multiple holes in lid allow discharge and admittance of air
 - Discharge: max. 340m³/h
 - Admittance: max. 160m³/h
- D400 load bearing capacity on complete surface*

Design:

- Design derived from DIN 4055

Optional

- Various colours and lid inscriptions possible
- Available as lockable version making the surface box tamperproof
- Use of a Flexdrain around the air valve prevents dirt to block the in-/outlet, ensuring optimal operation

**Results of the load-bearing capacity test on the complete surface, following the internally used load application method, and declaring the load-bearing capacity according to the corresponding class as per EN 124-1:2015, clause 7.2, table 4*

Accessories:

Support tile II

SYNTHETIC SURFACE BOX TYPE 4055
For underground air valves, H-4055V MD-GG, Classic

80/30-101

Component list:

1. Lid	Cast iron GJL-200 (GG-20)	4. Bolt, hexagon head	Stainless steel A2-70
2. Housing top part	PA+	5. O-ring	EPDM rubber
3. Locking clip	PP	6. Housing bottom part	PA+

Metallic components may be substituted with equivalent or higher-grade materials without prior notice, provided that this is in compliance with the approvals.
